

Frankie Adair is an Operations Program Manager at Raytheon Space and Airborne Systems in Forest, MS. She currently lives in Brandon, MS with her husband and daughter.

Frankie was born in Hattiesburg, MS. She graduated high school from Forrest County Agriculture High School. After graduation, Frankie enlisted in the United States Air Force and became an electronic warfare radar technician. While in the Air Force, Frankie was stationed at Keesler Air Force Base, Mississippi, Dugway Proving Grounds, Utah, Eglin Air Force Base, Florida, and Pilsung Range, South Korea.

After Frankie completed her enlistment with the Air Force, she went back to school and obtained a Bachelor of Science in Electrical Engineering from Mississippi State University. Frankie worked at Nissan Motor Manufacturing Plant in Canton, MS for 3 years. She then moved to Raytheon Space and Airborne Systems in Forest, MS and has been working there for the past 10 years. Frankie has held positions in process engineering, test engineering, value stream management, manufacturing engineering management, and program management. In these roles she was responsible for manufacturing processes, on time delivery, customer interface, financial management/reporting, applicable program management best practices, capital projects, and business development/proposals.
